Informations produit
Product informations

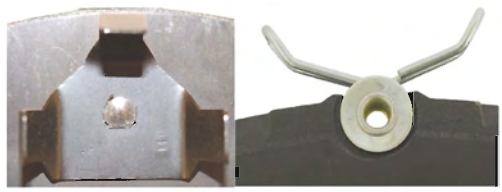

Nos plaquettes Sasic sont livrées en fonction du montage constucteur :

Our brake pads are delivered according to original equipment fitting :

Vis avec frein filet
Screw with thread locker

Différents types d'agrafe
Various type of clip

Témoin d'usure
Wear indicator

Informations produit
Product informations

Une plaquette : « c'est composé de quoi » ?
What is a brake pad made of ?

1 Friction : appelée aussi Garniture, elle est composée de plusieurs éléments organiques ou métalliques. Le choix de la composition de la matière de la friction a une incidence directe sur les performances, le confort ou le bruit lors du freinage. La qualité de la friction est un élément essentiel pour garantir la performance de la plaquette.
***Friction** : Also called trim lining, it is composed of several organic or metal elements. The choice of the composition of the friction material has a direct impact on performance, comfort or noise during braking. The quality of the friction is an essential element to guarantee the performance of the brake pad.*

Nota : L'amiante est interdite dans la composition de la garniture des plaquettes depuis 1997.
Note : Asbestos is forbidden in the composition of brake linings on brake pads since 1997.

En plus de la friction, peuvent s'ajouter des options :
Besides the friction options can be added :

2 Support métallique : ⇨ ***Shim***
Revêtement métallique qui est recouvert d'une couche de polymère, il agit sur la bruyance du produit et les vibrations.
Metallic coating which is covered with a layer of polymer, it acts on the noisiness of the product and the vibrations.

3 Pélliculage : ⇨ ***Rubber coat***
Revêtement caoutchouc qui agit sur la bruyance également.
Rubber coating which also acts on the noisiness.

4 Chanfrein : ⇨ ***Chamfer***
Il s'agit d'une découpe de la friction, il agit sur le refroidissement et l'évacuation des particules, ainsi que sur la bruyance.
It is a cut of the friction; it acts on the cooling and the discharge of particles, as well as on noisiness.

5 Rainure : ⇨ ***Slot***
Elle sert au refroidissement de la garniture de plaquette et à l'évacuation des particules.
It is used for the cooling of the brake lining and brake pad and for the discharge of particles.
